

Things to Consider When Buying Commercial Fridges or Freezers

Visit www.ArtisanFoodEquipment.com.au

Call 1300 278 472 Now

Power

- What power point is required to run the cabinet or refrigerator (ie: 10amp or different)?
- Is the power point close enough to where the refrigerator unit is going to be placed?

Bringing in the unit

- Is the front or back door big enough to get the unit into position?

Ambient and Ventilation

- What is the working temperature the room needs to be for the unit to work efficiently?
- Do I need mechanical ventilation if placing the unit in a small room or behind a fascia or pelmet or under a bulkhead or low ceiling?
- What ventilation do I need to the side or front or behind the unit cabinet?

Mobility and Cleaning

- Does the unit have castors or wheels so that it can be moved easily for cleaning or re-arranging?
- How often do I need to clean the condenser?

Special Features

- If buying a commercial fridge, does the unit have heated double glazed glass to prevent it from glass fogging?
- If buying a commercial freezer, does the unit have triple glazed glass to prevent it from glass fogging?

About Artisan Food Equipment:

Artisan Commercial Fridges and Freezers is your premiere destination for **commercial fridges and freezers in Australia**. Our many years of experience, customer care and backup, highlights our name as the leader in the commercial fridge industry.

Since establishing this business in 1972, nearly 50 years ago, Artisan have set exceptional standards in commercial food display and storage fridges and freezer sales as well as sourcing spare parts for commercial fridges and dispensing helpful advice.
